Ending Hunger in Africa

RELEVANT IFPRI PUBLICATIONS AND DOWNLOAD LINKS

This bibliography has been compiled around the two major themes proposed by the United States Agency for International Development (USAID) to accelerate and sustain smallholder-led growth in Africa in order to end hunger and poverty. The two themes are harnessing science and technology and unleashing the power of markets for smallholder farmers. The list is not exhaustive and is limited to a select series of books, reports, policy briefs, and other publications issued by the International Food Policy Research Institute (IFPRI).

IFPRI is playing an active role by providing strategic analytical support to USAID as it develops and implements its Agricultural Initiative To Cut Hunger in Africa (AICHA). A draft technical report and executive summary in support of the Initiative are available at the WSSD conference. The analysis will go beyond USAID's core areas of support in order to help inform a broader partnership about issues that will need to be addressed as part of a multi-donor effort. Additional materials that address many of these issues, including those that conform to AICHA's strategy, are cited in the report's bibliography.

IFPRI was established in 1975 to identify and analyze policies that meet the food needs of the developing world in a sustainable way. Research at IFPRI concentrates on economic growth and poverty alleviation in low-income countries, improvement in the overall well-being of poor people, and sound management of the natural resource base that supports agriculture. IFPRI is one of 16 Future Harvest Centers and receives its principal funding from governments, private foundations, and international and regional organizations, most of which are members of the Consultative Group on International Agricultural Research.

USAID Agricultural Initiative to Cut Hunger in Africa

"Cutting Hunger in Africa Through Smallholder-led Growth: An Executive Summary" [available as handout]

"Cutting Hunger in Africa Through Smallholder-led Growth: Full Report" <http://www.ifpri.org/>

NOTE: Full technical report to be uploaded on AICHA website at IFPRI.
